

ZEBRAFANT.AI

(Senior) Software Engineer in Green-Tech Startup

Full-time | Hybrid | Weisenheim | Karlsruhe | Munich

Software engineers at zebrafant.ai design and develop scalable solutions that have a tangible impact on waste management. As a software engineer, you will take full ownership of the process and codebase, managing the entire engineering project cycle from system design through application development and deployment. You'll collaborate with clients and continuously improve our products through rapid iteration.

Key Responsibilities

- Write clean, effective, and production-ready code and deploy it.
- Develop and conceptualize new features that integrate with our AI-driven models.
- Directly impact the adaptation of new technology into our tech-stack.
- Solicit feedback from clients and colleagues to enhance product value.
- Work effectively and independently and as part of our team to solve complex challenges.

What we are looking for

- M.Sc. in computer science, mathematics or related field.
- Proficiency in programming languages such as Python, Go, or C++.
- Familiarity with data structures, cloud infrastructure, API-Design and front-end frameworks.
- A demonstrated ability to learn continuously and make independent decisions.
- Ability to collaborate with both technical and non-technical team members.
- Proficiency in English; German is a plus.
- Experience in statistics, ML or mathematical optimization is beneficial.

What we offer

Be part of a motivated and driven team in a fast-paced startup that thrives on tackling challenging problems and delivering impactful solutions. You'll have the opportunity to work with the Institute for Autonomous Learning Robots (ALR) at KIT to implement and refine cutting-edge algorithms in real-world applications. We offer a competitive compensation package.

zebrafant.ai develops the world's first sensorless, fully integrated tour planning system for bring point waste collection systems. Awarded by the Gründungswettbewerb – Digitale Innovationen and startup innovativ, we are redefining waste collection by eliminating inefficiencies, cutting costs, and enhancing sustainability in waste management processes.

Join us at zebrafant.ai to shape a sustainable future through innovative technology. If you're ready to make an impact, we want to hear from you!

Apply by filling out our [application form](#).

Best,
Peter & Philipp
